

Purnima Bhutoria

SPATIAL DESIGN
& STORYTELLING

People, places and their stories interest me. It is the little things that make up our lives. With this in mind, I collect visual stories and attempt to navigate my work through them.

I've had the opportunity to imbibe the craft from many talented production designers that I have worked with. I have managed projects from conception to completion. My expertise lies in being able to dress a variety of spaces and finding order in the midst of chaos.
